TRAITS

Ooze Cube. The slime fills its entire space and is transparent. Other creatures can enter that space, but a creature that does so is subjected to the slime's Engulf and has Disadvantage on the saving throw. Creatures inside the slime have total cover, and the slime can hold one Large creature or up to four Medium or Small creatures inside itself at a time. As an action, a creature within 5 feet of the slime can pull a creature or an object out of the slime by succeeding on a DC 12 Strength (Athletics) check, and the puller takes 10 (3d6) Acid damage.

Transparent. Even when the slime is in plain sight, a creature must succeed on a DC 15 Wisdom (Perception) check to notice the slime if the creature hasn't witnessed the slime move or otherwise act.

ACTIONS

Pseudopod. *Melee Attack Roll:* +4, reach 5 ft. *Hit:* 12 (3d6 + 2) Acid damage.

Engulf. The slime moves up to its Speed without provoking Opportunity Attacks. The slime can move through the spaces of Large or smaller creatures if it has room inside itself to contain them, as described in the Ooze Cube trait. Each creature whose space the slime enters for the first time during this move must make a DC 12 Dexterity saving throw. On a failed save, the creature takes 10 (3d6) Acid damage and is engulfed. An engulfed target is suffocating, can't cast spells with a Verbal component, has the Restrained condition, and takes 10 (3d6) Acid damage at the start of each of the slime's turns. When the slime moves, the engulfed target moves with it. An engulfed target can try to escape by taking an action to make a DC 12 Strength (Athletics) check. On a successful check, the target escapes and enters the nearest unoccupied space.
