ON YOUR TURN

Each turn you can **Move**, take one **Action**, maybe one **Bonus Action**, and between turns one **Reaction**.

ACTIONS

- Attack with a weapon or damaging cantrip (see Skills page)
- Dash, Disengage, Dodge, Hide, Help, Search, Ready, Shove, Grapple, Influence, Study, Utilize

BONUS ACTIONS

- None special

REACTIONS

- Opportunity Attack when a creature leaves your reach
- Cast a spell with a Reaction casting time

HOUSE RULES

- **Catch your breath.** Out of combat, spend one Hit Die + your Constitution modifier to heal. Up to 3 times all run; mark each on the Hit Dice track above.
- **Spellcasting.** Cast any spell of a type you can cast from a found Spell Book, if you have the slots. You can reach one level above your normal maximum by spending two slots of the level just below it: two level-1 slots cast a level-2 spell, two level-2 slots cast a level-3 spell like Fireball. That over-level cast needs a spellcasting check (DC 10 + the spell's level). The slots are spent whether you pass or fail, and a failure fizzles the spell.

ATTACKS & DAMAGING CANTRIPS

Roll d20 + the Hit number to hit with an attack. For a spell that forces a save, the target rolls against your DC instead.

ATTACK	HIT / DC	DAMAGE	NOTES
Unarmed / Martial Arts	+5	1d6 +3 bludgeoning	Melee (STR or DEX)

Writing in a weapon? To hit, add your proficiency and ability modifier: melee is +3 (STR), finesse or ranged is +5 (DEX). Add that same modifier to the weapon's damage.

WHO YOU ARE

YOUR ANCESTRY: HUMAN

Humans are the most adaptable people in the world. They do not have a single knack; instead they pick up a little of everything and push harder than most.

- **Resourceful.** You start play with Heroic Inspiration. You can spend it to reroll any one d20 roll and keep the result you want.
- **Skillful.** You are trained in one extra skill of your choice (already added into your Skills page).
- **Versatile.** You gained an extra origin feat at character creation (listed under Feats below).
- **Size and Speed.** You are Medium and move 30 feet on your turn.

YOUR BACKGROUND: SAILOR

You lived as a seafarer, wind at your back and decks swaying beneath your feet. You’ve perched on barstools in more ports of call than you can remember, faced mighty storms, and swapped stories with folk who live beneath the waves.

- **Trained Skills.** Acrobatics and Perception (already on your Skills page).
- **Tools.** Navigator’s Tools.
- **Origin Feat.** Tavern Brawler (explained under Your Feats).

YOUR FEATS

Feats are special perks from your background and choices, on top of your class.

- **Tavern Brawler.** Origin Feat. You gain the following benefits. Enhanced Unarmed Strike. When you hit with your Unarmed Strike and deal damage, you can deal Bludgeoning damage equal to 1d4 plus your Strength modifier instead of the normal damage of an Unarmed Strike. Damage Rerolls.
- **Tough.** Origin Feat. Your Hit Point maximum increases by an amount equal to twice your character level when you gain this feat. Whenever you gain a character level thereafter, your Hit Point maximum increases by an additional 2 Hit Points.
- **Dark Bargain.** A pact perk from your backstory. Confirm its exact effect with your DM before play.
- **Character Threads.** Threads are aspects added to characters at any time during their career that have a specific short or long-term goal.
- **Runestones.** At the beginning of the Northlands Sagas adventure path, each player should draw one Runestone randomly.

YOUR CLASS: MONK (WAY OF THE DRUNKEN MASTER (XGTE))

A Martial Artist of Supernatural Focus. Monks focus their internal reservoirs of power to create extraordinary, even supernatural, effects. Primary Abilities: Dexterity & Wisdom. Hit Point Die: D8. Saves: Strength & Dexterity

WHO YOU ARE

The Way of the Drunken Master teaches its students to move with the jerky, unpredictable movements of a drunkard. A drunken master sways, tottering on unsteady feet, to present what seems like an incompetent combatant who proves frustrating to engage.

Track your limited uses here. Each box is one use, and every per-rest use is doubled because this dungeon has no rest.

Focus Points

Spend to power your Monk features. Each ability and its cost is listed below.

Uncanny Metabolism

When you roll Initiative, regain all spent Focus Points and heal a little. One use.

- **Martial Arts.** Free. Your Unarmed Strikes and Monk weapons deal damage using your Martial Arts die (a d6), and you can use Dexterity instead of Strength for their attack and damage rolls. When you take the Attack action on your turn, you can make one Unarmed Strike as a Bonus Action.
- **Unarmored Defense.** Passive. While you wear no armor and hold no Shield, your AC is 10 + your Dexterity modifier + your Wisdom modifier.
- **Flurry of Blows.** 1 Focus Point. Right after you take the Attack action, spend 1 Focus Point to make two Unarmed Strikes as a Bonus Action.
- **Patient Defense.** Free, or 1 Focus Point. As a Bonus Action, take the Disengage action for free. Or spend 1 Focus Point to take both Disengage and Dodge, so attack rolls against you have Disadvantage until the start of your next turn.
- **Step of the Wind.** Free, or 1 Focus Point. As a Bonus Action, take the Dash action for free. Or spend 1 Focus Point to take both Dash and Disengage, and double your jump distance for the turn.
- **Unarmored Movement.** Passive. While you wear no armor and hold no Shield, your speed increases by 10 ft. This is already added into your Speed on page 1.
- **Deflect Attacks.** Reaction (redirect costs 1 Focus Point). When an attack hits you and its damage includes Bludgeoning, Piercing, or Slashing, use your Reaction to reduce that attack's damage by 1d10 + your Dexterity modifier + your Monk level. If this reduces the damage to 0, you can spend 1 Focus Point to redirect the force: choose a creature within 5 ft (if the attack was melee) or within 60 ft (if it was ranged). That creature makes a Dexterity save or takes Force damage equal to two rolls of your Martial Arts die + your Dexterity modifier.
- **Slow Fall.** Reaction. When you fall, use your Reaction to reduce the falling damage you take by five times your Monk level.
- **Uncanny Metabolism.** Once per run. When you roll Initiative, you can regain all expended Focus Points and heal Hit Points equal to your Monk level + one roll of your Martial Arts die. Track this on the Uncanny Metabolism boxes.
- **Drunken Technique.** Free (with Flurry of Blows). Whenever you use Flurry of Blows, you also gain the benefit of the Disengage action, and your walking speed increases by 10 ft until the end of the turn.
- **Bonus Proficiencies.** Passive. You gain proficiency in the Performance skill and with Brewer's Supplies.
